HEADQUARTERS COURSE

MSK Hands-on Training Course for Beginners

January 11–12, 2019

AIUM headquarters, Laurel, MD

Course director: Sandra J. Allison, MD

Target Audience: This course is designed for sonographers interested in enhancing their knowledge in the MSK anatomy of the 6 major joints (shoulder, elbow, wrist/hand, hip, knee, ankle/foot).

Learning Objectives: At the completion of this course, participants should be able to sonographically identify the musculoskeletal (MSK) anatomy of the 6 major joints (shoulder, elbow, wrist/hand, hip, knee, ankle/foot) as well as gain hands-on experience in performing the basic protocols of the upper and lower extremity.
